

FAQs - ENERGY-INDUSTRY SCHOLARSHIP (EIS)

1. What is the Energy-Industry Scholarship?

This is an industry scholarship for those pursuing relevant engineering courses at the local Polytechnics. The scholarship will cover a student's tuition fees, one-time allowance (to purchase items related to his or her studies, such as computer and books) and monthly living allowance.

Besides a full-term scholarship, the EIS also offers a mid-term scholarship to those who have already commenced their studies. The bond period will be commensurate with the total scholarship value.

Applicants interested in applying for a mid-term scholarship will need to have at least one academic year of studies remaining at the point of application.

2. What does the scholarship cover?

The EIS will cover the following, where applicable:

- Tuition fees (as published by the Polytechnic for the relevant academic year)
- One-time allowance of \$1,200 (to purchase items related to the course of study, such as computer and books)
- Monthly living allowance of \$1,000

The EIS is valued at up to \$46,500 for full-term scholarships and \$31,400 for mid-term scholarships.

3. When is the EIS scholarship application period?

The application cycle for the EIS starts in December and closes in March. This application period is applicable whether you are applying for the Full-term or Mid-term scholarship.

For the EIS 2024 cycle, applications will be open from January to April.

4. How will I be notified about the application outcome?

Successful applicants will be notified by the respective sponsoring organisations via phone, email or post.

5. Can I choose more than one sponsoring organisation in my application form?

You may select more than one sponsoring organisations in the application form. However, you may accept only one scholarship offer.

6. If I am currently receiving a bursary/scholarship, can I apply for the EIS?

The EIS is meant for students without any existing bursary or scholarship.

7. What is the bond period for the scholarship?

The bond period will be commensurate with the total scholarship value. More details on the bond period for each scholarship type can be found below.

Scholarship and the bond period

Type of Scholarship	Polytechnic
Year 1 (Full-term award)	3 years
Year 2 (Mid-term award)	2 years
Year 3 (Mid-term award)	2 years

8. Can I change my course of study after accepting a scholarship?

You will need to discuss this with your sponsoring organisation which will consider your request on a case-by-case basis.

9. How do I apply for a scholarship if I will be / am pursuing an engineering course at a local or overseas university?

You may apply for the Singapore-Industry Scholarship (SgIS) if you are a Singapore Citizen and will be / are currently pursuing relevant engineering courses (such as mechanical, electrical, power engineering related courses) at a local or overseas university.

The SgIS is the only scholarship that is developed in partnership with the industry and Government. It offers Full-Term, Mid-Term and Mid-Term Overseas scholarships for eligible applicants.
